

Gujarat Technological University's

CiC3

Community Innovation & Co-Creation Centre

On : 22/02/2015 At CiC3, GTU, ACPC Building, L.D. Engineering College Campus, Ahmedabad

Arduino is an open-source physical computing platform based on a simple microcontroller board, and a development environment for writing software for the board.

Arduino can be used to develop interactive objects, taking inputs from a variety of switches or sensors, and controlling a variety of lights, motors, and other physical outputs. Arduino projects can be stand-alone, or they can communicate with software running on your computer (e.g. Flash, Processing, MaxMSP.)

On Arduino Day students will get introduction to Micro controller board, brief knowledge about Arduino Board. They will introduce to Arduino Community and get time to play with Arduino board after the event in CiC3 Lab.

Resource Person: Meghav Verma, Co-Founder & Technical Head -Agile Systems Automation

Interested Engineering Students can participate in Workshop; Fees: No fees for Students.

Date: 22/02/2015, Sunday; 10:00 am - 4:00 pm

Venue: CiC3, Gujarat Technological University, ACPC Building, LDCE Complex, Navrangpura, Ahmedabad

To register: Since limited seats are available. Kindly register at the earliest.
