

Announcement of International Experience Program (IEP)

Message for B. Pharm Semester – VI, Students

Revised Cost Annexure -1

Ref no.: GTU/STP/ Bph/2849

Date: 21 March 2012

As a part its Global Initiative, Gujarat Technological University (GTU) has decided that our students should have the opportunity to visit and study at an International University, during the summer. GTU has received an acceptance from Laurentian University, (LU) Canada. LU has identified following courses from the semester VII and VIII GTU syllabi of Bachelor of Pharmacy.

1. Pharmacology –III (Sem VII – Code 270006)
2. Pharmaceutical Chemistry-X (Medicinal Chemistry) (Sem VIII – Code 280003)

The academic calendar for this batch will be designed in such a way that their next academic term does not suffer. The classes for those two subjects will be held every day just like normal study for 6 weeks. At the end of program, they will give an examination at LU.

Students will have to go to Canada during this summer to take courses at LU. They will have two lectures everyday and associated lab/tutorial work as per the requirement. After successfully completion of the courses and passing the exam at LU, a student may be given credit at GTU. This student will not have to retake the course when he/she resume his/her study back at his/her parent college. When he/she will pass the exam successfully at LU, he/she will be able to take two less subjects in their final year.

GTU will get VISA related papers from LU for the selected students only and then the students have to apply for the VISA on their own. Please note that short listing does not guarantee the visa for a student.
