2. The placement status for 2012 passing outs at the institutional level as well as regional level was discussed.
3. The strategies to make placement scenario better in the respective institutional and regional level were discussed. We all collaboratively decide following things to be done like vocational training, guest lecture, workshop, alumini committee, job fair, mock GD &PI,Participation of students in various competitions, campus connect programme etc.
4. It was mutually decided that all the institutes should firstly approach for IDP's instead of UDP'S as far as possible.

5. It was planned to divide different industrial geographical areas and to assign one area per institute and accordingly concerned institutes will have to take responsibility to visit assigned area and find out industries that can train their students during final year projects.
6. It was explained and discussed about the fact; placement is not only the responsibility of GTU I-TAP, but it should be through team efforts of all the institutions to develop placement cell and prepare candidates for campus recruitment.
7. It was planned to arrange job fair at regional level to invite as many as possible industries.
8. Every institution should trace industries and if industries are ready to take other colleges, make sure the institutions of that particular region get opportunity.
9. We will try our best to accelerate placement activities at Baroda region.
