21.02.2015

Report of Day-02 of 5th Research Week – 2015 **of Faculty of Pharmacy**

On 19th February 2015, Thursday, Day-02 of Research Week- 2015 (Pharmacy) begun with orientation program for all experts who came as an examiners at 9.30 AM to 10.00 AM.

After orientation program, morning oral review exam of 56 M. Pharm (Pharmaceutics), 64 M. Pharm (QA) students and 06 PhD students have been conducted during 10.00 AM to 1.00 PM. During post lunch session, poster evaluation of all M. Pharm students done by industry experts and outside GTU experts during 2.00 PM to 3.00 PM.

After poster evaluation two (02) expert workshop, which include one for Pharmaceutics and another for Quality Assurance branch has been organized during 3.00 PM to 5.00 PM. All M. Pharm students have actively participated in this workshop too. Brief details of workshop conducted is as per below:

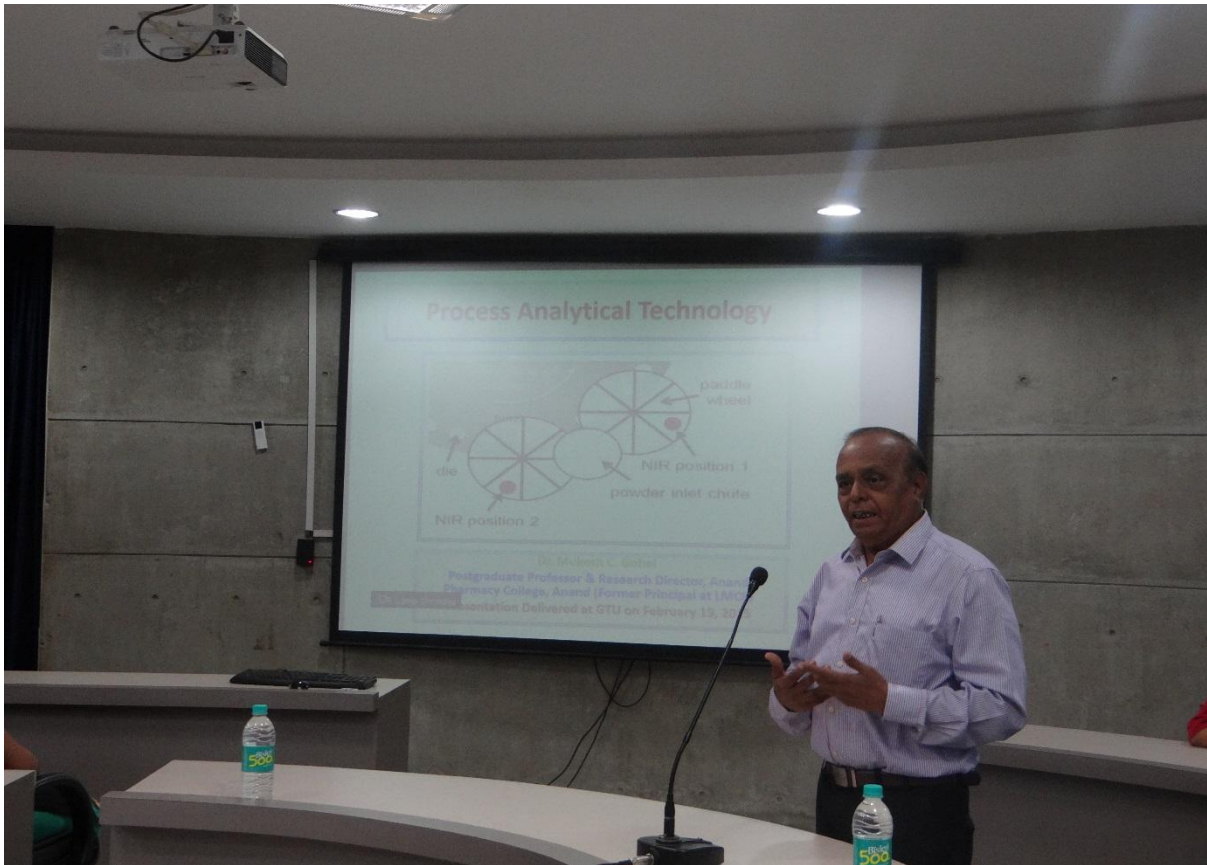

1) Workshop -01 (Pharmaceutics)

Dr Mukesh C. Gohel

Ex-Principal of LM College of Pharmacy &
Director PG, Anand Pharmacy College, Anand

He has taken a topic of “**Quality by Design and Process Analytical Technology**” in his afternoon workshop.

“The very basis purpose conducting the Research week at GTU is excellent, since the students requirements are considered by the experienced examiners. Therefore, the quality of the Research work and moral of the students will bust-up. The novel experiment of presenting poster is also worth appreciating the student’s ability to combine, present and express their dissertation topics. The staff member assistance of GTU is worth appreciating and the facilities are excellent. For the Ph.D students, GTU may think about starting publication of own Research journal to cut down the time of publication, which delays the award of the degree. All students will be benefited since in the afternoon experienced faculty members deliver the lecture on contemporary topics.” – **Dr. M. C. Gohel** about RW-2015

2) Workshop -02 (Quality Assurance)

Dr. J. B. Dave

Professor, Shri Sarvajanik Pharmacy College, Mehsana

He has taken a topic of “**Quality Assurance in Pharmaceutical Academia and Industry**”.

“Quality Research and Quality manufacturing are pillar of any industry and in similar fashion Quality Research and Quality teaching are pillars of any academic institution including University. The initiative of GTU to celebrate Research Week by combining exam of PG/Ph.D students with scientific presentations by expert from industry and academia is truly meaningful. The comments of the Honb. VC during the orientation session was very much relevant and served an important points for the experts to consider during evaluation. Inclusion of poster presentation is added feather in the cap this time, which is also appreciating steps and help to improve presentation skills of students, it will of research objectives and method among students and faculty”. – **Dr. J. B. Dave** about RW-2015
